BASIC HOME INFORMATION

(MINIMUM) (MAXIMUM)

_____ -- _____

Living Square Footage Range

Living Square Footage is defined as space intended for human occupancy. This area includes all rooms to be heated by a central heating system

_____ -- _____

Total Square Footage Range

Total Square Footage includes all space on the slab. This includes all Living Square Footage as well as any porches, garages, carports and any partially-finished attic space and any additional rooms not heated by a central heating system.

Number of Bedrooms

Include only Bedrooms, including Mother-In-Law Suite; do not include Study, Office, etc.

Number of Bathrooms

Include any half baths as 1/2 Bath; include a Jack and Jill Bath as one full bath; include Mother-In-Law Suite Bath.

STANDARD

Bedroom Layout

SPLIT

"Standard" is typical of all bedrooms being on one side of the home, sharing the same hallway. A "Split" Floor-plan is designed so where the Master Bedroom is on the opposite side of the home as the Secondary Bedrooms. A "Semi-Split" Floor-plan fuses elements of both. All bedrooms are located on the same side of the home, but the Master Bedroom retains it's own hallway separate from the other bedrooms.

SEMI-SPLIT

"Standard" is typical of all bedrooms being on one side of the home, sharing the same hallway. A "Split" Floor-plan is designed so where the Master Bedroom is on the opposite side of the home as the Secondary Bedrooms. A "Semi-Split" Floor-plan fuses elements of both. All bedrooms are located on the same side of the home, but the Master Bedroom retains it's own hallway separate from the other bedrooms.
